Hazardous Weather

Hazardous Weather

Hot temperatures are expected today, with highs 100 to 105 on the Caprock and 95 to 100 over the Rolling Plains. High humidity will continue from the eastern South Plains through the Rolling Plains. And a Heat Advisory is in effect for the extreme southern part of the Texas Panhandle and northern Rolling Plains.

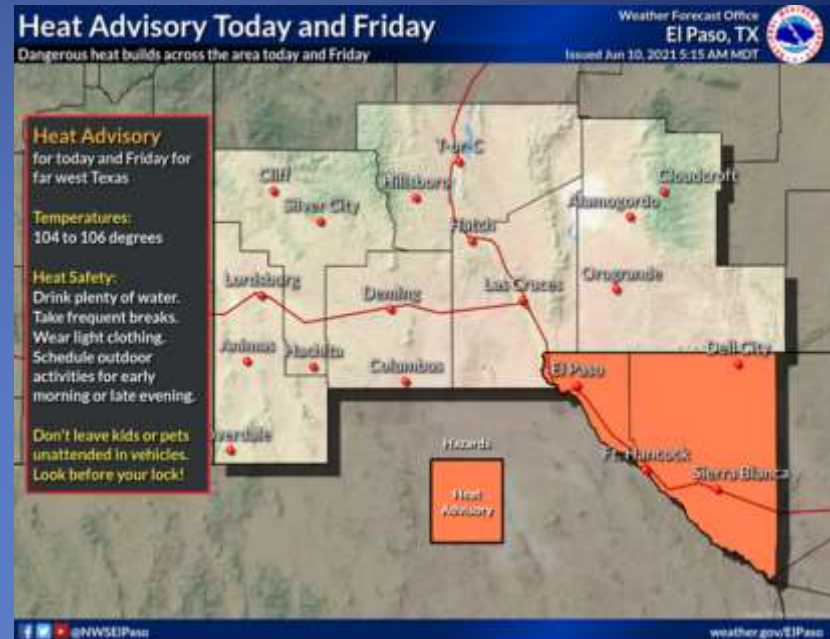

A Heat Advisory is in effect this afternoon across the extreme southern Texas Panhandle and northern Rolling Plains. A combination of very hot temperatures and high humidity will lead to an increased risk of heat illnesses for people exposed to these conditions.

Hazardous Weather

Heating up a little more Thursday with temps in the 90s areawide, despite cloud cover lingering through the early afternoon hours for some. Combined with a tropical-like airmass in place and resulting humidity means heat index values will see be around 100 degrees for most areas. Young and Stephens counties will see readings around 105 degree, where a heat advisory is in effect. South winds 10 to 15 mph and occasionally gusty will provide little relief for those outdoors. Everyone should take precautions to limit exposure and reduce the risk of heat exhaustion.

Today starts the first of several very hot days. A heat advisory is in effect for most of far west Texas. High temperatures today will range from 104 to 106 degrees. This will produce some dangerous heat conditions today and Friday. People should schedule outdoor activities to the morning or late evening hours. If you have to be outside, be sure to drink plenty of water and take numerous breaks.

Hazardous Weather

Flash Flood Watch

Through 1 PM CDT Today

Weather Forecast Office
Shreveport, LA
Issued Jun 10, 2021 4:37 AM CDT

A few storms capable of producing heavy rainfall in a short period of time may lead to flash flooding.

Heat Advisory

In Effect This Afternoon Through Friday Evening

Weather Forecast Office
San Angelo, TX
Issued Jun 10, 2021 3:40 AM CDT

WHAT...Heat index values of 105-109 expected.

WHERE...Big Country and Concho Valley in West Central Texas

WHEN...From 1 PM today to 8 PM Friday during the afternoon and early evening.

IMPACTS...Hot temperatures and high humidity may cause heat illnesses to occur.

PRECAUTIONARY ACTIONS:

- Drink plenty of fluids
- Stay in an air-conditioned room
- Stay out of the sun
- Take extra precautions if you spend time outside by rescheduling strenuous activities to early morning or evening
- Wear light weight and loose fitting clothing when possible
- Never, ever, leave children or pets alone in enclosed vehicles, not even for a few minutes

A few storms capable of producing heavy rainfall in a short period of time may lead to flash flooding across the watch area today.

Hazardous Weather

A Heat Advisory is in effect for most of SE New Mexico and SW Texas for today. Please make sure to take frequent breaks in the shade or AC, drink lots of water, and avoid strenuous activities outside.

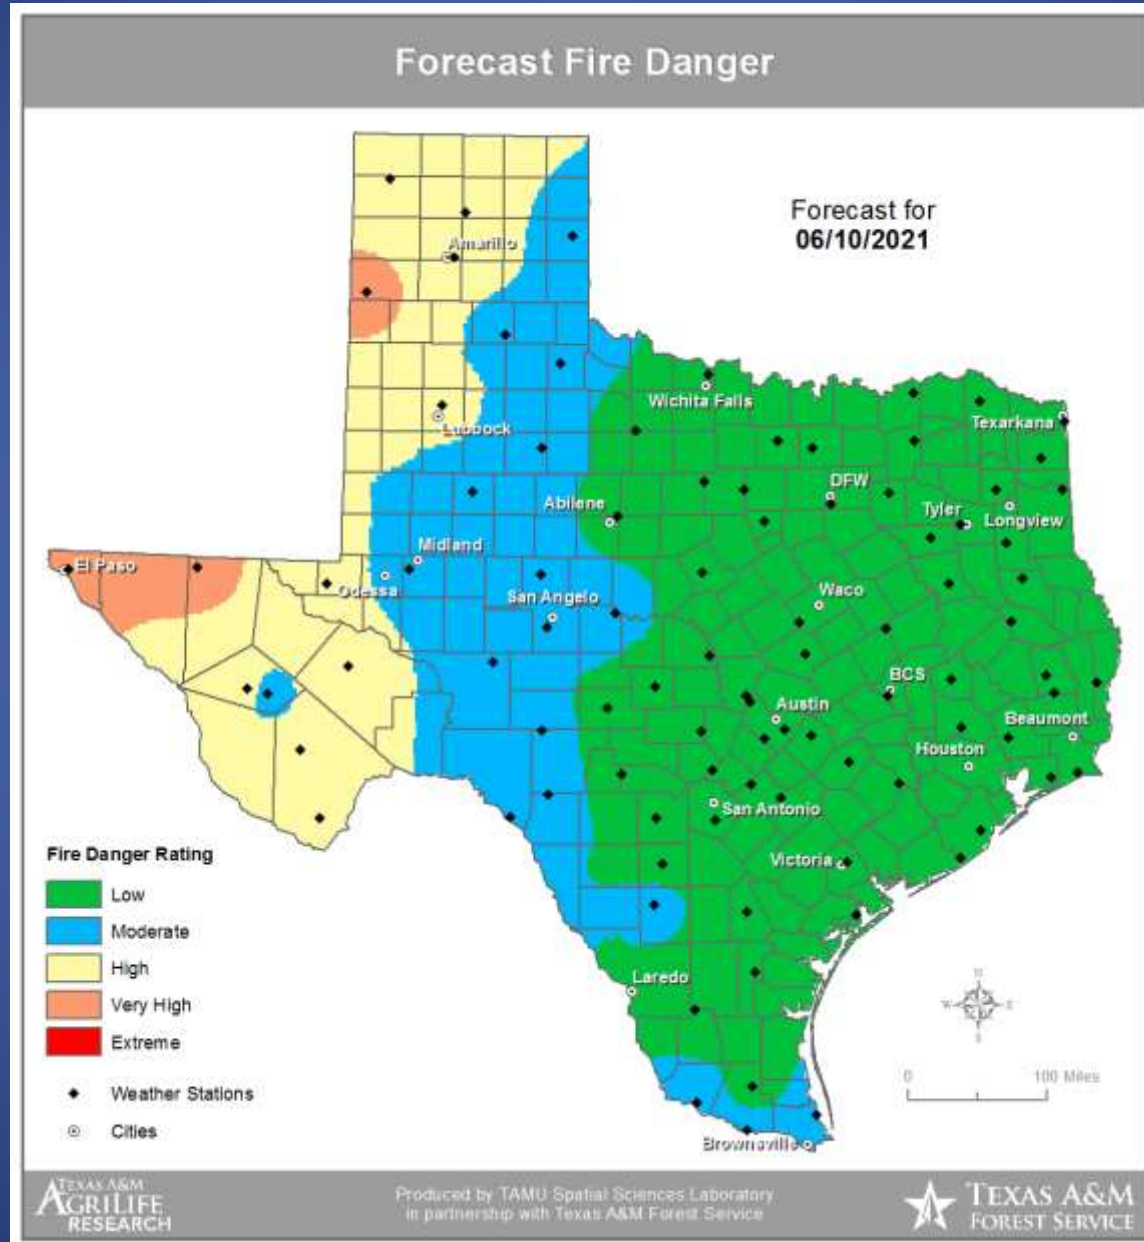

Isolated storms are possible this afternoon along a dryline. A marginal risk exists for one or two to become severe, especially south of the Pecos River.

Weather Warnings/Advisories Issued

| DATE | WARNING TYPE | LOCATION |
|----------|-----------------------------|---|
| 06/09/21 | Severe Thunderstorm Warning | Crane, Pecos and Ward Counties |
| 06/10/21 | Flood Warning | Elm Fork Trinity River Near Carrollton affecting Denton and Dallas Counties |
